 **SHELVING SA**
BULK MANUFACTURERS

INDUSTRIAL RACKING

- Fully customizable for flexible storage
- Perfect for palletized goods
- Budget-friendly and cost-effective
- High-capacity storage solutions
- Streamlined for efficient picking
- Minimal equipment and capital investment required

BOLTED SHELVING

- Fully adjustable with a 125kg per level load capacity
- Perfect for offices, workshops, small parts, and home storage
- Available in galvanized finish (ideal for catering) or durable powder-coated option

MINI RACKING

- The perfect in-between solution when industrial racking is too heavy and shelving is too light
- Ideal for loading capacities of 300 - 700kg per level
- Incredibly cost-effective
- Fully adjustable

WORK BENCHES

- Strong, sturdy, and cost-effective workbenches, designed for durability and ease of assembly.
- Available in various sizes to suit your needs:
- 1000mm H x 2440mm W x 610mm D with plyboard deck
- 1000mm H x 2100mm W x 610mm D with storage level and decking

MEZZANINE FLOORING

- Cost-effective solution to expand factory floor space
- Fully designed, supplied, and installed for convenience
- Free-standing with long-span capabilities
- Available as a structural steel floor or racking-supported system
- Load capacities ranging from 200kg/m² to 1 ton
- Various decking materials available to suit your needs

CANTILEVER RACKING

- The perfect storage solution for long, bulky, and oversized items
- Widely used by steel traders and hardware stores
- Custom-made from high-quality structural steel to meet your specific needs

SPECIALISED RACKING

- Maximize space with our high-efficiency block-stacking systems:
- Drive-In Racking – High-density storage
- Pushback Racking – LIFO storage system
- Live Racking – Gravity-fed for stock rotation
- Mobile Racking – Space-saving movable units

SUPERMARKET SHELVING & GONDOLA

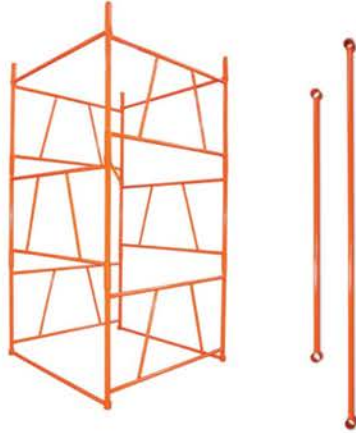

Custom-designed shelving with various sizes, layouts, and accessories, including stacking baskets, dump bins, pegboards, hooks, and lightbox beams.

SCAFFOLDING

Durable, safe, and versatile scaffolding solutions for construction and maintenance. Designed for stable assembly, and maximum efficiency on-site.

- PLEASE PROVIDE KEY POINTS

RACKING SAFETY EQUIPMENT

Ensuring safety around your racking is essential. We provide various solutions for secure loading and early warning systems, including:

- Column Guards – Protects racking from impacts
- Forklift Protection – Reduces collision damage
- Safety Signage – Educates operators on load capacities and distribution
- Beam Stickers – Ensures correct pallet placement
